## EDUCATION

**University of California, Los Angeles**  August 2016 – Present
Mathematics of Computation, B.S. (Expected 2020)
> GPA: 3.94 / 4.00

## PROJECTS

**BruinMeet, a UCLA dating app**  December 2017 – Present
Back-End Developer
> Used JavaScript and Node.js to implement new features and API endpoints
> Learned about and made use of AWS, including SNS and S3 buckets
> Implemented a modular and easy-to-manage notification module
> Designed and implemented a new matchmaking cycle

**PUG Bot, a Discord bot that manages pick-up games**  July 2018
Developer
> Written entirely in Python with an object-oriented design
> Keeps track of teams and automatically moves players between voice channels
> Other features include naming teams and randomizing teams

## EXPERIENCE

**Arise Learning Resources**  July 2018 – Present
Math Tutor
> Worked one-on-one with students to help them improve their SAT math scores
> Taught students to prepare them for upcoming math classes, such as Algebra II
> Created worksheets in order to help students overcome weaknesses

**Tutorfly**  December 2017 – Present
Tutor
> Held review sessions for math classes, such as calculus and linear algebra
> Communicated directly with professors to prepare review sessions as effectively as possible
> Worked individually with students in order to improve performance in various subjects

**Smash at UCLA**  September 2017 – Present
Graphic Designer
> Designed the logo and Twitch stream overlay with Photoshop
> Created player ranking graphics, which are used the group Facebook page's cover photo
> Made flyers for advertising the club and its events

**Rendezvous**  January 2017 – December 2017
Food Service Worker
> Served food and drinks to customers efficiently and accurately
> Helped train new workers and assisted them when they struggle with tasks
> Learned how to work at several stations and how to switch between them quickly

**iCubeMart**  July 2015 – September 2015
Site Development Intern
> Reviewed all product images on the site for poor or inaccurate photos, and took high quality images to replace them
> Wrote blog posts, accurate product descriptions, and other text as needed
> Spotted content and technical issues on the website front-end
> Helped create spreadsheets and counted stock required to sell on Amazon
> Created banners and advertisements with Photoshop in order to promote the store and sales
